BOAT OVERVIEW

Embark on an adventure today in a Sea Jay's premium car topper range, the No-mad. Our Nomad range has a unique v-nose entry that helps slice through swell and chop while the bottoms flatten out toward the transom allowing greater stability at rest. The smaller models make loading onto a roof rack, camper trailer or caravan effortless due to their flat deck and handles forward off the gunwhales. Not only does this prevent anything catching, but also reduces the risk of damaging both your boat and racking. Our Nomad HS (75mm higher sides) is also well suited for car topping and very appealing for the estuaries of the Top End.

**HULL ONLY \$4,930
(NO REGO)**

*This price is subject to increases. If this price is accepted by you and deposit paid, the price will be reviewed prior to the commencement of the build. The reviewed price will then be presented to you. If you choose not to accept this price your deposit will be refunded to you in full.
